Brian Bode  
Kansas City Community College  
7250 State Avenue  
Kansas City, KS 66112

Dear Mr. Bode:

It is with pride that I provide a letter of reference for Mr. Hector Luevano of Luevano Hart Construction, LLC.

I have known Hector since 2004 when he became a certified supplier with the MidAmerica Minority Business Development Council (formerly the Minority Supplier Council). I was Vice President of Program and Planning for MAMBDC at that time. Luevano Hart Construction is a very successful company and Hector has most recently expanded his office space which I consider a state of the art facility.

I was very proud to recommend Hector to attend the National Minority Supplier Development Council's Advanced Management Education Program which is held at J.L. Kellogg Graduate School of Management, Northwestern University in Evanston, Illinois.

Some of his major contracts have been with:

- University of Missouri, Kansas City
- Ameristar Casino
- Kansas City Missouri School District

What Hector learned at Kellogg he immediately put to practice. The end results has made his company one that has been able to achieve and sustain accelerated growth which is what you would want to see in a small business.

My hope is that you will consider Luevano Hart Construction for any procurement opportunities with Kansas City Kansas Community College.

Feel free to contact me should you need additional information regarding this very successful business owner.

Sincerely,

Chris Kelly  
Program Coordinator-Supplier Diversity
